

LED Lifter 130 inch

Motorised trolley for 130" LED display

- **Easy setup for user convenience - Powerful motorised height adjustable trolley**
- **Designed for multiple installation environments - Casters and adjustable legs included**
- **Modern design harmonises with any space - High quality build and a professional finish**
- **Safely store items and equipment - Cable management (power pass through) and built-in lockable storage**

The LED Lifter 130" is a motorised height adjustable trolley for professional use - specially designed to fit the Optoma FHDS130 all-in-one LED display.

The trolley is adjustable in height up to 50cm and is also TÜV and CE certified. For added convenience, the trolley fits through standard height doorways and includes both casters and adjustable legs so it can be moved between rooms easily.

Built-in lockable storage provides space for cables, peripherals, and power strips to be hidden away from view. The state-of-the-art cable management means the Optoma LED display and LED Lifter are powered by a single cable, providing flexibility and a neat design that harmonises with any space.
