LOGIN	NEW ACCOUNT	

Click **Add** to add the new projector information. The following step requires the **Pair Code** data.

Complete this step on the Projector

On the projector, go to **Application > Smart Home.**

Projector	Application	Settings	
D			
Media Playe	Smart Home		
Wi-Fi Display	y		

Complete this step on the Computer or Mobile Device

Click **Register** to obtain the 4-digit pair code from the Mydevices Cloud. After the pair code is generated, it will appear on the **Show Pair Code** field.

Note: If the pair code does not appear, please check if there is a proper network connection and repeat the above steps again.

On the Optoma Mydevices webpage, enter the serial number, pair code, and choose a projector alias (name) from the dropdown list. Then click Submit to register the projector.

To edit the information, do the following:

- Click **Alias** to change the projector name.
- Click **Remove** to delete the serial number.

Complete this step on the Computer or Mobile Device using Alexa App

The Smart Home Skill (Optoma SmartProjection for Smart Home) is available in the Amazon Alexa Skill Store.

Go to alexa.amazon.com or open Amazon Alexa App on your Android or iOS Smartphone, then login with your Amazon Account.

Select Skills from the menu on the left, then type "Optoma" in the search field.

"Optoma SmartProjection for Smart Home" will appear in the search results.

- Click "ENABLE" on the SmartProjection for Smart Home Skill.
- Log into your Optoma Mydevices Cloud Account upon successfully logging into your Optoma Mydevices Cloud Account, you will be redirected back to the Amazon Alexa Webpage. Skill is NOW enabled.

You can continue the process via the webpage OR download and open the Alexa App on your Smartphone or Tablet.

Smart Home Skill (SmartProjection for Smart Home)

Enable Alexa skill "Optoma SmartProjection for Smarthome"

Upon successfully linking the SmartProjection for Smart Home Skill, the Smart Home Discover Devices dialog will appear.

• Click on Discover Devices – the "Alexa is looking for devices" dialog will appear.

Discover Devices		×	ste
Smart Home devices must be discover	ed before they can be used with Alexa.		Alexa is looking for devices. Device discovery can take up to 20 seconds.
CANCEL	DISCOVER DEVICES		

The projector will appear as a discovered device under "Devices" under the "alias" assigned to the projector at Optoma Mydevices Cloud Webpage.

Projector is now ready to accept Alexa commands. Please see the supported Alexa Smart Home commands on the following pages.

Alexa Smart Home Skills

- "Alexa, turn on living room"
- "Alexa, turn off living room"
- "Alexa, raise volume on living room"
- "Alexa, lower volume on living room"
- "Alexa, change volume to 8 on living room" (volume range is 1-10)
- "Alexa, change input to HDMI 2 on living room"
- "Alexa, change input to HDMI 1 on living room"
- "Alexa, change input to multimedia on "living room" (takes you to home screen).
- "Alexa, change input to VGA on living room"

4K UHD/1080p USB Media Player commands

*The "play" command is the only command that can be used from the Home Screen or while using another input. Using the play command while using HDMI 2 (for example) will result in a change of input - playback will begin.

**Next, Previous, FF, REW, Stop, Pause and Start Over commands can only be used during playback of media content and or while the 4K UHD HDR Media Player is open.

- "Alexa, play on living room" (playback will begin with FIRST file on the USB disk/drive).
- "Alexa, pause on living room"
- "Alexa, stop on living room"
- "Alexa, next on living room"
- "Alexa, previous on living room"
- "Alexa, fast forward on living room"
- "Alexa, rewind on living room"
- "Alexa, start over on living room" (playback current file from the beginning).
